

# ACTIVITIES FOR THREE TO FIVE YEARS

## Art Responding Activity: Introducing Wire Sculpting

### Instructions

After making your wire sculpting; place it on the table.

1. Don't tell the children that you have something to show them; what is it and why is it there;  
> let them see it themselves  
> let their exploration discover the wire sculpture you made
2. When the children have seen it;  
> Let them SEE, TOUCH, FEEL the wires, Let them explore and be curious on what are the wires for.  
> See if they are interested
3. As they get into much deeper thoughts  
ask them questions:
  - "What do you see ?"
  - "What makes you say that?"
  - "What caught your attention and why?"

### Materials:

- Wires
- Wire cutter

### Preparation:

**For teachers:** Before coming in, prepare a wire sculpting that you have made to show to the children later on. (Reminder: not only the children will benefit from this activity but also the teachers as you get to experience on how to do wire sculpting!

### LEARNING OUTCOME ASSESSED:

- **OUTCOME 1:** Children will be able to develop their merging autonomy, interdependence, resilience and sense of agency as they will be open to new challenges and discoveries and will approach new safe situations with confidence.
- **OUTCOME 2:** When children are introduced to new things they will have an understanding of the world they live in and will broaden their imagination and they will be able to investigate, project and explore new ideas or knowledge.
- **OUTCOME 3:** Children will be able to recognise the contributions they make to shared projects and experiences.
- **OUTCOME 4:** Children will show increase awareness of their surrounding, will apply generalisations from one situation to another and will transfer knowledge from one setting to another.
- **OUTCOME 5:** They will be able to respond verbally or non verbally to what they see, hear touch, or taste
- Children will learn to interact with others to explore ideas, concepts, clarify and challenge thinking negotiate and share new understandings.

# Art Making Activity: Wire Sculpting activity

## INSTRUCTIONS:

- Give the children different colours of bendable wires
- Let them **STRETCH, BEND, MAKE SOMETHING OUT OF IT**
- Let them make whatever they want and the children will bring out the creativeness in them.

## Notes/Suggestions:

- Having a colourful bendable wires will make the children be more interested in what they are making
- Leaving the wire sculpture you've made earlier will inspire on what to do with the bendable wires

## Material Needed:

- Bendable wires (a much more bendable material for children)

## LEARNING OUTCOME ASSESSED:

- **OUTCOME 1:** Children will be able to confidently initiate and join in play, explore and engage with social and physical environments through relationship and play.
- **OUTCOME 2:** Children will be able to demonstrate, explore and investigate new ideas
- **OUTCOME 3:** Children will be able to recognise their own achievement, enjoy moments of solitude acknowledge and accept affirmation and will become strong in their social and emotional wellbeing
- **OUTCOME 4:** Children will be able to manipulate objects and experiment with cause and effect, trial and error, and motion and develop a range of skills and processes such as problem solving, inquiry, experimentation, hypothesising researching and investigating.
- **OUTCOME 5:** Children will engage in enjoyable interactions using verbal and non- verbal language to what they see, hear, touch, feel and taste.
